

Name:

Period:

## Fetal Pig Dissection

Terms to Identify on Your Photos

### General Anatomical Structures:

1. achilles tendon
2. abdominal aorta
3. brachiocephalic artery
4. brachiocephalic vein
5. calcaneus bone
6. celiac artery
7. cecum
8. carotid artery
9. cornea
10. coronary artery
11. cystic duct
12. diaphragm
13. ductus arteriosus
14. duodenum
15. epiglottis
16. esophagus
17. external acoustic meatus
18. gall bladder
19. gastrocnemius muscle
20. gender identification
21. heart
22. hemiazygous vein
23. ileocecal valve
24. inferior vena cava
25. jugular vein
26. kidney
27. larynx
28. liver
29. lung
30. masseter muscle
31. mesenteric artery
32. nictitating membrane
33. pancreas
34. phrenic nerve
35. pinna
36. pulmonary trunk
37. pyloric sphincter
38. renal artery
39. renal vein
40. small intestine
41. spiral colon
42. spleen
43. stomach
44. subclavian artery
45. subclavian vein
46. submandibular salivary gland
47. superior vena cava
48. thoracic aorta
49. trachea
50. thymus gland

51. thyroid gland
52. umbilical vein and arteries
53. ureter
54. urinary bladder
55. vagus nerve (cranial nerve X)

### Male Anatomical Structures:

56. ductus deferens
57. epididymis
58. penis
59. testis
60. urogenital opening

### Female Anatomical Structures:

56. ovary
57. uterine tube
58. urogenital papilla
59. vagina
60. uterine horn

- ➔ For each picture, identify anterior, posterior, dorsal, and ventral directions as appropriate/necessary.
- ➔ Include the term's number when labeling your photos; each project will have 60 labeled terms.
- ➔ Don't forget that each of your photos needs to have your handwritten identifier in each shot.
